EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Randall Beckers on January 6, 2004.

The application has been amended as follows:

- Cancel Claims 4-5, 8-10, and 14;
- In Claim 11, line 4, insert **--axis--** after "first casing hole," after "second casing hole," and after "first casing hole" (second occurrence).

2. The following is an examiner's statement of reasons for allowance:

As claims 1-3 and 12 were read and interpreted in light of the specification, the prior art of record fails to specifically disclose a laser diode module having the all the limitations of those recited in the independent claim, and in particular, an alignment rail positioned in the first casing hole aligned parallel with the second casing hole axis and a ferrule having an alignment groove fitting the alignment rail to align the slant polished first ferrule with the lens.

As claims 6-7, 11, and 15 were read and interpreted in light of the specification, the prior art of record fails to specifically disclose a laser diode module having the all the

limitations of those recited in the independent claims and particularly having a lens-fiber assembly with a single piece casing not requiring assembly that has an advantage since it reduces the need for alignment as recited in Applicant's arguments filed October 3, 2003.

As claim 13 was read and interpreted in light of the specification, the prior art of record fails to specifically disclose a laser diode module having, in particular, a third casing hold between the lens and the ferrule for making communication of the first and second casing holes with the ambient air such that a removable plug can be affixed to the hole for air evacuation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Y. Wang whose telephone number is 703-305-7242. The examiner can normally be reached on M-F, 8 am - 4:30 pm.
